

I do not want my K-LOVE radio station to go off the air because of LPFM stations vs FM translators. This radio station serves me in my local community by providing good christian quality music and a station that is kid friendly. I do not have to worry what my children will hear on this radio station.

The effect on my community would also be terrible without K-LOVE. This station provides uplifting positive music and messages to our whole community. If replaced by another station, then there is no alternative to turn to on FM stations for good quality christian music. These are positive forces for everyone, but especially our teens. It is a proven fact that bad lyrics and bad messages cause children to do bad things, and adults. Why can't the opposite be true, good lyrics and good music cause children to do good things and adults?

In todays crazy world, lets keep as many positive influences as we can in our community and across the nation. If you allow FM translators off the air, then you are allowing more evil to come to our nation. Please, allow us to keep THE ONLY CHRISTIAN RADIO STATION IN OUR COMMUNITY on the air, K-LOVE 90.7, in Chesapeake, Virginia.
